The W. M. E. of the Knox United Church, Kilgus, enjoyed the first meeting after the holidays, at which Mrs. John Gair, the president, Mrs. J. Sherman conducted the devotional "The Lord's Prayer." A welcome was extended to Mrs. A. Smith of Grouse, Ont., who is visiting Mrs. Doris Martin, and to Mrs. Huston, our minister's wife, who is joining our group. Mrs. Smith told us of her Auxiliary, and Mrs. Huston gave the highlights of the School for Church Women held at Algonquin College in Edmonton recently.

In roll call Mrs. Wilson told about the new Mission Hospital at Cold Lake. Miss H. Hunt introduced the new study book 'Concerns Of The Continent.' Our growth in work

outreach comes from such studies
reading about other countries. Love
ly refreshments were served to
members and one guest, by the ho
ess Mrs. Gair.

FERTILE FIELD

(By A. E. Edwards, District Ag.)
Sowing crops of potatoes in the district have started sprouting and peeling tubers. This condition is very common in some varieties of potatoes during a dry year. The potato gets to a certain stage and then stops growing. If conditions change a little, then they will resume growth.

Since it is not possible for the farmer to change conditions, it is necessary to grow potatoes in small tubers to avoid this.

In an endeavour to secure the best possible type of design for the fifty homes for aged persons to be built by the Provincial Government in the rural areas of the Province, the Government of Alberta invites residents of the Province to submit a sketch plan for such a home. **THE FOLLOWING CASH AWARDS WILL BE PAID:**

1ST PRIZE	\$5000.00	2ND PRIZE	\$2500.00
3RD PRIZE	\$1000.00	4TH PRIZE	\$500.00

And 10 Prizes of \$100.00 each for features contained in a plan not necessarily selected for one of the first four awards.

The plan required is for a one storey building costing approximately \$300,000.00 when landscaped, furnished and ready for occupancy. The cost does not include the cost of the land.

- The plan must contain provision for all services necessary to provide for the comfort and physical well-being of fifty (50) ambulatory aged persons of both sexes and must contain the following:
1. Bedrooms designed for double occupancy, with a limited number for single occupancy;
 2. Bathing and toilet facilities for fifty elderly persons;
 3. Room for residents to meet visiting friends or relatives with some degree of privacy;
 4. Kitchen and dining facilities for fifty residents;
 5. Communal and recreational area;
 6. Provision for occupational therapy programs for both sexes, with detail as to layout;
 7. Suite for supervising matron;
 8. Administration office;
 9. Laundry facilities for the residents to wash personal belongings.

Sketch plans need not necessarily meet architectural standards, but should be drawn to scale of 1/8th inch to the foot, with any detail layout to scale of 1/4 inch to the foot. All signatures should be so placed as to be readily marked covering any of the plan detail.

The winning plans and features will be chosen on merit by a panel of judges whose decision will be final.

All award winning plans and features become the exclusive property of the Government of Alberta.

The Government is not bound to use any winning sketch plan or feature in the preparation of the final architect's working plans but may vary any plan or combine or vary any award winning feature or plan so that the best possible design will be achieved. Only residents of Alberta are eligible to submit sketches.

All sketch plans should be sent to The MINISTER OF PUBLIC WELFARE, Room 363 Administration Building, Edmonton, Alberta. To be eligible for a award a plan must be delivered or postmarked not later than SATURDAY, NOVEMBER 15th, 1969.

AND ON EVEN THE

AND ON EVEN THE COLDEST NIGHT...

Thousands of Imperial people work night and day to bring you the low-priced oil products you have come to depend on

Across this country, nearly 14,000 Imperial people are at work to supply your needs... in exploration parties, at research laboratories, in refineries, on the road.

In the oil fields, and in areas which might produce oil, they are seeking to enlarge Canada's oil reserves... as

that this country will not go without oil, now or in the future.

In research . . . (Imperial has more extensive facilities than the rest of the industry put together) . . . and at nine refineries, working 'round the clock . . . they seek to develop the products which will keep you warmer, move you more conveniently . . . and more cheaply.

For in all their activities, Imperial people are constantly aware of the necessity of bringing you the products you need . . . at the low prices you have come to expect.

Season's
Greetings

As the night of the Christmas Eve and the morning dawn with the same glad meaning it brought to Bethlehem. And as we yield our hearts to the spirit of tenderness which pervades the Christmas day, may we remember the heavenly love which came into this world the night Christ was born.

Let us remember, too, that we keep Christmas truly only when we permit the love of the Christ to enter our hearts and lives. May you enjoy a truly Merry Christmas and a Happy New Year.

MEETING
The annual meeting of the
Sedgewick Branch of the
Canadian Automobile Club
will be held at the
Hotel Victoria on
Friday evening, March 27th.
The program for the evening
will include a report on the
club's activities during the
past year, followed by a
dinner and entertainment.
The meeting will be held
at 7:30 p.m.

AN ELUSIVE KENDER
Perhaps only once in a lifetime does
a man enjoy the thrill of seeking an
adventurer in Canada's most popular
water game. Perhaps because of the
perfect set-up, secured by ship
Tanner's reports of Sedgewick
play, and because of the number of
winners, Amos Smith of Canmore
in the Sedgewick Club, followed by
to be Tommy Harrison (1935),
Bob McNeill, Cecil Gould & Leroy
Barnhill, all of Sedgewick.

TOP GOAL TENDER
Vern Miller, pictured above, has
just been presented with the annual
H. B. Barker League Best Goal
Award for the 1935-36 season. The
award is given to the goal-keeper
who has the least number of goals
scored against him.

On the Parisienne Scene

High fashion experts finally agree

Wonderful news... at last fashion experts are unanimous in their choice of the most glamorous creation of the year. It's the most extreme new look to date... the 1959 Parisienne (Parisienne). During the last few days of the final point of this beauty—the lines are crisp, clean, and as daisy. The rear view is a captured oval to give a lovely, sleek look. Gals also wear up and down and all around—lets you with all the back items as you wear by. Look for fashionistas (Parisienne) takes time materials, does them all the colors of a summer sunset—mixes and matches them in the most exciting color trim and combinations of the year. How marvelous to show your new spring outfit of accessories like this. And just to show you it's a woman's world, try doing this. It's effortless you that alone.

A flick of the wrist and you're round the corner. A touch of your toe and you stop suddenly, steadily, surely. The Parisienne matches your love of luxury, flatters your fashion sense. Drive the Parisienne woman. It does more for you than a hundred new hats.

Killam Arena Razed By Morning Fire

The arena was razed to the ground by a fire that broke out at about 10:30 p.m. last night. The fire started in the kitchen area and spread rapidly, consuming the entire structure. The Killam Arena was a popular spot for community events and had been recently renovated. The fire caused significant damage to the surrounding area and the community is now looking for a new venue for their events.

The fire was caused by a gas leak in the kitchen area. The gas was ignited by a pilot light, causing a small fire that quickly grew out of control. The fire department arrived within minutes and worked hard to contain the fire. Unfortunately, the damage was too extensive and the arena had to be razed.

THE GREENS MADE IT ALL RIGHT!
all \$100,000 of it. Mind you I took Mr. Green 18 years —
and that's what he made it all right. The Greens, the
most of us in our village will earn more than this bigging
pile of bank notes. Question is how much will we have? By
making saving at the B.O.M. helps you keep more of what
you make. Just one of those 100,000 dollars will open a
savings account for you. Keep it strictly for saving, and
there's one thing you can say for the money you put into
that account... you have really got it made.

FOR RESULTS

Bro had no need of a grand prize or a pat of reward to sustain him. For these things he had no position either.

For the last story he had daughters, who spend more than \$1.5 million a year, according to World Bank statistics, to take care for beauty, youth, and health. And they pay more than \$100,000 a year to have their hair cut, even though they will have to wait for the stylist to finish their hair.

It's just a slight misfortune that would have gone down in history

FALL FERTILIZE GRASSLAND with Elephant Brand

TURN CATTLE ON PASTURE EARLIER

You save money when you can turn cattle on to pasture several weeks earlier. You make money when you increase hayland yields 2 or 3 times and get better quality feed. INDEPENDENT FRONT SUSPENSION

Front wheels ride over bumps individually and give you "steered" jolts. By affecting each wheel separately, the front suspension keeps both wheels and the car's body on the road before they reach the other side or roll.

BIG REAR SPRINGS

Designed for load and to keep the car's frame from twisting, these heavy-duty coil springs would be transmitters of motion, not absorbers, if not for the shock absorbers that keep the car steady and on track.

Work of art

Current models have new vinyl-covered seats, new interior features, and a new body.

INDEPENDENT FRONT SUSPENSION

From which the new bumps individually and joints are "isolated" by the different springs, the bumps absorb the bumps and shocks before they reach the car's body or axle.

BIG REAR COIL SPRINGS

Proudly for full cushioning effect on "bumps," "bumps," potholes, ruts and bumps, the new big rear coil springs cushion the bumps and shocks must shock's like instantly would be absorbed in the frame. What's more, mounting improves the resistance on every road roll.

DOUBLE CHAMBER CONTROL ARMS

These double chamber control arms adjust the car's ride, absorb bumps and shocks, and control the car's steering and braking forces. What's more, the double chamber control arms absorb the bumps and shocks before they reach the car's body or axle.

GMC "Cushion" Pick-up

Work-proved in every kind of operation, GMC's efficient suspension brings you new values in low-cost maintenance and high-profit service. For the many other features that make GMC trucks the best in the industry, see your GMC dealer now.

MORRIS ROD WEEDEE

GUARANTEED TO WORK ON STONY LAND

- Weeds, parks, matches and conserve moisture in one operation at a minimum expense.
- Used throughout the season — spring, summer and fall.
- Ideal when weeds or wild oats show up after grain is seeded (even though sown 1/2 inch). A shallow operation will not only make a good kill, but pack seeded grain for better growth.
- Pulls thistles to a depth of twelve inches.
- The popular 28AD 20-ft. model hydraulically controlled folds into less than 14-ft. for speedy transport convenience.
- 12 and 14 foot models for smaller acreage, or 3-point units with Dual Hitch for 24 or 28 ft. coverage. Spring-tooth attachments available to loosen the ground when it becomes hard.

MORRIS ROD WEEDEES DO NOT COST

THEY PAY.

IN MEMORIAM

In loving memory of Kenneth
Dwyer who passed away June 14,
1961.

One year has passed and gone,
since one we loved so well;
We miss him from his home on earth
With God in Heaven to dwell.

Living and kind in all his ways,
Upright and just to the end of his
days.

Steady and true in his heart and
mind.

Beautiful memories he left behind,
However long our life may be,
Whenever joy or sorrow be ours.

We still remember him,
Ever remembered by Brothers
and Sisters in Law and Family.

So I

THE BIBLE TODAY

When the Gospel was translated
into the English language and printed
at the Reformation Press in Turin,
a large number of people in In-
do-China were enabled to read
God's Word for themselves. Two
young men after reading the
Gospel made a profession of
faith in Christ. When they were
sent to an isolated post near the
17th parallel, which is the demar-
cation line between north and south
Viet Nam, it was feared that the
new-found faith of these men
might prove dangerous to the in-
dians and strain of their duty. One
of them took with him all the avail-
able Bible Scriptures.

Two years after their departure,
word was received of a new group
of believers in a remote village
where the missionaries had, at
long last, been able to visit.

It was found that one of the 12
officers, after completing his term
of service, had returned to this
village and was giving a true wit-
ness by word and deed, as that he
was then fifty Bible people had
been interested in the Gospel.

This group had spent his time
on his lonely post, reading &
studying the Gospel and pondering
upon it so that he became a more
convicted Christian and determi-
ned to communicate what he had
found to his own people. God
brought light and new life
where ever it is read and studied.

IN MEMORIAM

In loving memory of Kenneth
Dwyer who passed away on June
14th, 1961.

Deeply beloved from us to gone,
The years we loved in stillness,
A place is vacant in our home
Which never can be filled.

Our hearts still ache with longing,
Our eyes still shed a tear;
God knows how much we miss him
As we miss this first year.

Dear God please take our message
To him in Heaven above,
And let him know how much we miss
him.

And give him all our love,
Ever remembered by his Loving
Wife Doris and Children (Gary,
Evelyn and Allan), Mom and Dad
and Brothers.

Words To Know Today!

We live in a changing world today. Of course that statement has always been applicable, but today things, places and conditions change more rapidly and more radically than at any other time in history. In fact things change so rapidly that one is hard-pressed to keep abreast. In the realm of words for information, changes bring into use new words so rapidly that before a new edition of a dictionary gets off the presses it is outdated. The following new words, for information, show what I mean:

Bomb - The point of nuclear weapons is measured in equivalents of the explosive energy of TNT. One kiloton equals 1000 tons of TNT. The equivalent of one million tons of TNT. Ground zero - The surface point at or above which a nuclear weapon detonates. Fireball - The large, swiftly expanding sphere of hot gases, producing brilliant light and intense heat that is the first manifestation of a nuclear explosion. The nuclear blast wave - The near solid wall of air pressure produced by a nuclear explosion. Blast Wind - The wind gust which travels with the blast wave and may be many times hurricane force. Roentgen - A unit for measuring an amount of radiation. Initial Radiation - The burst of gamma rays and neutrons that come out from the explosion during the first minute after detonation. Fallout - The radioactive debris of a nuclear explosion, which eventually falls to earth in particles. Fallout Radiation - The radiation emitted by fallout particles. Contamination of the beta rays. Fallout - The fallout that returns to earth during the first day following an explosion. Of course there are many more new words coming into the English language. Above are only a few that people are beginning to use today.

Builders, Destroyers, Neuts

(GUEST EDITORIAL)
Three kinds of people make up our world: the Builders, the Destroyers, and the Neuts. The builders are the people who build; the destroyers are the people who destroy what the builders have built; and the neuts are the people who couldn't care less, so long as their TV is working.

I have to look at the destroyers' handwork every day. Some fool has kicked the railings from the footbridge in Jubilee park; some fool has smashed a bottle of ink on the wall of the new swimming pool; and dozens of fools have paved my way to work with broken bottles. A neut may say, "Well, what are a few two-by-fours anyway? What's a little ink splash on a wall? Why get upset about it? The builder will not ask these questions. He knows what it takes it is time and effort to fix a serviceable railing even in a little footbridge. He knows of the hours and materials it takes to paint a wall. He knows, to his sorrow, that it takes some irresponsible punk with a little twisted mind of gristle for a brain exactly 30 seconds to ruin it all.

What, if anything, goes on in the mind of the kicker-spout, the defacer? What are his sentiments towards those whose efforts have built the communities in which he lives? His works proclaim his bottomless contempt for these creative forces. They proclaim his belief that the builders are plain suckers who tell to produce something which the destroyer may take his obnoxious pleasure. This wretch must feel, too, that he has the builders at his mercy, for he can not destroy a hundred times as fast as they can build? This vicious attitude must be uprooted and replaced with a first-hand knowledge of the difficulty of building, and a genuine reverence for the accomplishments of the builder. We have to bring up our own families as builders; we must exert the best efforts of our mind and body to build. We need now a positive campaign to eradicate appalling mental destruction of which acts of destruction are born. - Head-Loser, bulletin of the Camrose, Alberta Lions Club.

Yesterday, Today and Tomorrow!

There are two days in every week about which it is unbecomingly to worry. One is yesterday with its mistakes and errors and its faults and blunders. The other is tomorrow. It, too, is beyond our control. Tomorrow's sun will rise either in the east or in the hind of mask of clouds - but it will rise. That leaves today and usually our present trials are easier to bear than tomorrow for what happened yesterday, or dread of what tomorrow may bring. Let us, therefore, journey but one day at a time. - Ann.

The demerit of life may have its faults, but it is worth lived well until so many tried to fix it.
